**COM-7: TRADITIONAL DAYS**

Each culture has their own traditional day, but also there are common days. According to our culture we are loading some values to some days then we are celebrating them in a different way. In this project we will assist the young people that all countries have their own way to celebrate their own traditional days. During this project we will learn that which country have which days as traditional days and how they are celebrating and why. In this way students will learn that there are other reasons behind what other people are celebrating to such days.

We can give you such examples as traditional days.

Christmas day = 25 December

Valentine day = 14 February

New Year = 1 January

April fool's day = 1 April

Mothering Sunday = 26 march

Halloween= 31 January

In some countries they are not being celebrated while others are being done. And no one knows what the reason behind of celebrating it is. In this project student will see that everyone has own way and we should learn each other traditional so that we can show respect each other.

#### **The aims of the project:**

- To assist students understand each of us different than each other
- To give opportunities know other countries' days.
- To encourage the student to be involved in these projects
- To create an opportunity share experiences, knowledge and culture.
- To establish close - friendship between students from different cultures.

#### **Activities:**

- Determining the traditional days in every country
- Finding common traditional days and check the reason behind them ( if its same or not)
- Choosing 4 different traditional days and preparing presentation about it
- In every country these traditional days will be celebrated with all participants of this project. ( Y country will host other countries and present their own traditional days and al participants will join it)
- 1 common traditional day will be celebrated in a coordinator county with all participants.
- There will be meetings in every country about other countries' traditional days to introduce it.

#### **DISSEMINATION AND USE OF RESULTS**

Press conferences and workshops will be organized in each partner's country announcing the project and its aims;

- Through professional meetings and personal contact with relevant school and local authorities, such as teachers, headmasters, trainers, inspectors, experts, representatives of local administration;
- By publishing the project and its steps on the internet and/or a special websites, including our school website;

Dissemination of the results and the products by:

- Presenting the CD during meetings and conferences;
- Multiplying the newly achieved experience both of the part of the staff involved and from the participants;
- Using them within the presented shows on different occasions;
